

Publications

Membership includes five of our newsletters per year, “Yesterday’s Tools”.

Our newsletter features articles and photos of a variety of tools and their history. Articles highlight Canadian tools.

Introducing

The Tool Group of Canada

We are a non-profit group who are interested in learning about, collecting, using, and preserving antique tools; any kind of tools.

We meet 5 times per year in February, March, June, October and November.

Our June meeting is usually a visit to a place of interest (e.g. pioneer museum, collector's farm) in a picnic atmosphere.

Please join us as a guest, **at no charge**, at our next meeting.

Please see our web site for more information and to confirm the dates and location:

www.thetoolgroupofcanada.com

Meeting Agenda

Our typical meeting begins at 9:00 with discussions, and the selling and trading of tools. Bring the tools you'd like to part with and be on the hunt for "new" ones.

We feature **guest speakers** that discuss a variety of wide-ranging topics of great interest to tool enthusiasts. Our speakers are experts, leaders of the tool industry, craftspeople and are all friendly and willing to share their knowledge.

Finally, we have our "What's It's" portion of our meetings. Members bring in unusual tools for identification. Some are known by our very knowledgeable members, but others are mysteries, lost in the past. We can only make an educated guess as to what these tools were once used for.

Our meetings are a casual, relaxed way to learn about tools, their use and history. We have members that are some of Canada's leading authorities in tools.

We finish at about 12:00 noon.

Demonstrating the Pole Lathe,
